The last known mailing address of either the inventor(s) or the assignee(s) of the entire interest is:

RE: Recovery of TNT and RDX from Bulk Composition B Explosives
U. S. Patent No.: 7,423,187
Our File: 17615-1

Dear Eric:

Enclosed is the original U. S. Letters Patent No. 7,423,187, which was issued on September 9, 2008 by the U.S. Patent and Trademark Office (PTO). You should review the patent carefully for printing errors, which we can have corrected.

Please note that you must, under the present law, pay to the PTO three maintenance fees on or before the following dates.

1st Maintenance Fee:	March 11, 2012	-	\$ 490.00
2nd Maintenance Fee:	March 09, 2016	-	\$1,240.00
3rd Maintenance Fee:	March 09, 2020	-	\$2,055.00

You should verify these amounts at the time of payment, since they are subject to change by law or regulation. Failure to timely pay these maintenance fees will result in the cancellation of your patent rights.

Although our law firm does maintain a date calendaring system, we do not assume the responsibility of reminding you when the maintenance fees are due. Therefore, we urge you to keep track of these deadlines in your calendar system.

Products that include the patentable features should be physically marked with the patent number (*e.g.* U.S. Patent No. 7,423,187). In this regard, please be sure to read and

follow the enclosed insert. Valuable rights will be lost if you fail to properly mark your invention.

Due to the fact that it is sometimes difficult, if not impossible, to locate former clients when maintenance fees become due, it is a policy of this firm to file with the PTO the enclosed papers which indicate that we are withdrawing as attorney of record on this file and to further instruct the PTO to forward directly to you any notices or other correspondence relating to this patent.

Please be advised that this patent will expire January 3, 2025, which includes an adjustment of 665 additional days. If you have questions, please give me a call.

Very truly yours,

Henry E. Naylor
